INTERNATIONAL  
WOMEN'S DAY

# ***#InspireInclusion***

Imagine a world where everyone feels welcome and safe; that including women into decision making, leadership roles and conversations is seen as invaluable. That developing female talent and promotion is considered a business benefit rather than a 'tick box' exercise. That women's and girls' presence and contribution to the world is valued. Finally, that inclusion is seen as an advantage to everyone.

We offer a range of speeches, masterclasses and facilitated workshop to Inspire Inclusion for all your employees.

# Feedback

Susan has a plan. This makes it very easy to work with her. Her content & tips are chunked "easy to digest" and even more important: they all make sense and are easy to apply. Did I mention that she is fun and entertaining on stage (live and virtually)? Saying this as a communication expert - Susan is communicative gold. **Katja Schleicher Public Speaking & Media Coach at Impact! Communication Coaching**

"I have had great experience working with Susan on delivering a workshop to support our stakeholders in the Middle East region. It was so easy working with Susan. She understood our requirements, what we wanted and how she needed to customise the content for the audience; the content and delivery was great and we received great feedback from the attendees. I would definitely ask Susan to do another workshop for our members in the region." **Fazeela Gopalani Head of ACCA Middle East**

"Susan is one of the most genuine, professional and dedicated people that I know. Her particular brand of coaching, presentation skills and mentoring has led to numerous participants who have taken her courses, being able to present the very best version of themselves in the workplace. Susan is the 'real deal'. Believable, easy to connect with and easy to learn from. All of my business dealings with her have been positive. I would certainly recommend the Susan Heaton-Wright Superstar Communicator philosophy to companies and individuals alike. She can make a difference for you. Especially right now"  
**Keith Sammels CEO Law Creative**

Susan, You were fantastic! We have received such positive feedback about not only the content you delivered, but about how you presented it. Very interactive, very engaging. We all loved it! Well done! **Michelle Connolly Pfizer**

Thank you so much for today! You did brilliantly and everyone enjoyed the session. Love how you were able to tie it in a relate it to current news. **Sylvia Wajszczyk Invesco**

Susan is an empowering, personable and highly engaging speaker, who brings out the best in her audience. Susan really takes the time to tailor each of her talks to her audience and to answer each question carefully, helping you to grow as a professional, to be aware of your biases and how you can help your organisation to be more diverse. I have had the opportunity to watch a couple of her workshops and I highly recommend Susan's Women in Leadership program to any organisation. She has so much drive, care and commitment, it comes as no surprise how many awards and accolades she has accomplished. **Jana Longdown Southampton II**
